

Please be advised that just prior to the December school break the online payment system for school meals: www.mynutrikids.com , was changed to : www.myschoolbucks.com. Heartland Payment System is now the payment processor for the Nutrikids program.

What was said to be a seamless transition was fraught with problems, that I am happy to say have now been resolved. The following highlights all changes to former procedures in making online payments to student accounts.

1. Log-in for online payments is now accessible thorough: <http://www.myschoolbucks.com>. Existing user names and passwords have not changed.
2. Payments made to student accounts are instantly approved and downloaded to individual accounts within ten (10) minutes.
3. The convenience fee for transactions is changed to: \$1.95. Payment methods available include: Visa, MasterCard, Discover or Electronic check. Parents/guardians may fund up to \$120.00 per student. Multiple student payments are considered a single transaction.
4. If you had previously set-up email alerts for low balances they must be re-set in myschoolbucks.com. These alerts were not transferred.
5. If you had not previously set up a student account and would like to do so you must visit the www.myschoolbucks.com website. A ten-digit student ID number is necessary and may be obtained by contacting the Food Service Director at: lpetrowski@hanoverschools.org.

Thank you for your patience as we worked through this transition, your participation in the National School Lunch Program is appreciated.

Lynn Petrowski, Food Service Director
